Hi Paula, 09/202,455 is in my two month amended docket, at first I did not think I needed to request a sequence search, but upon further examination, I need the following sequences searched. Would you kindly, approve this rush search?  
Thanks.

STIC, please search SEQ ID NOS:6, 9, 15, 17, 18, 19 of 09/202,455 against commercial data bases, thanks.
